"He has done a great deal for the local hospital, and our best wishes go with Harry Haylock," said Mr. Geikie.

"We already have one hundred and twenty-five beds, along with one hundred beds in the maternity wards, but we must expand.

"We must have more and more available beds," he said. "We are hoping our local Members of Parliament will come forth, and do all possible to assist us along these lines, for right now the hospital is too small for the population in this municipality," added Mr. Geikie.
